PPCT

Britani's Story

"I'm glad to know that PrEP protects me from HIV and doesn't interfere with my hormones."

Kalvin's Story

"Because I take my HIV meds every day, I'm Undetectable, so I can't pass HIV to my partners."

Sonja's Story

"When I found out I got HIV, I thought my life was over. I started medication and now I'm Undetectable, so I can't pass HIV through sex and my new boo knows he's safe."

La Historia de Sergio

"Tomo mi medicamento para el VIH todos los dias para mantener mi carga viral tan baja que es imposible pasarle el virus a mis parejas sexuales."

Monique's Story

"A girlfriend of mine found out she got HIV. I was scared, but I got tested. Now I know I'm negative and can make sure I stay that way by getting onto PrEP."

Jacob's Story

"I get tested for HIV because anybody could have it and not even know. Just 'cuz you never got tested, doesn't mean you're negative."

La Historia de Gracia

"Mi amiga descubrió que tiene VIH. Me hice la prueba y comencé a tomar PrEP para protegerme contra el virus. También hay programas que ayudan a pagar el medicamento."

Darrell's Story

"I have a girlfriend but sometimes, stuff happens. So, I'm on PrEP to protect her and me."

La Historia de Marcos

"Estoy soltero por lo tanto me hago la prueba de VIH cada seis meses para asegurarme de que todavía soy negativo. Uso condones la mayor parte del tiempo por lo tanto voy a preguntar acerca de cómo obtener PrEP en mi próxima cita para mantenerme protegido todo el tiempo."
